EXPLORATION OF SOLID COMPOUNDS BY SPECTROSCOPIC METHODS

LAP Lambert Academic Publishing Sep 2015, 2015. Taschenbuch. Book Condition: Neu. 220x150x5 mm. Neuware - Most of the naturally occurring solid compounds such as minerals, plants, herbs etc., are inorganic in nature. They exhibit different colours due to the presence of transition metal ions. Even though we know the composition of some minerals we can't understand the properties exhibited by them which are useful in many applications such as medicine, chemical industries, agriculture etc. For the characterisation of a mineral its structure is very...

Reviews

It is one of the best publications. It was written extremely flawlessly and valuable. I am easily able to get a delight of looking at a created pdf.

-- **Mikayla Lockman**

It is one of the best ebooks. It generally is not going to expense excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Ara Williamson**
